THE INNOVATORS OF COMFORT™

EKORNES®

Comfort is... the Stressless® way of living

Every Stressless® has a story to tell, beginning and ending with the word 'comfort'. It's been our inspiration for the last 45 years. So, all the time we've been making the world's finest recliners, we've also been thinking and rethinking the whole concept of comfort. Style and good looks are important too, but in the end, it's all about how wonderful your body feels when you are seated. And that's why relaxing in a Stressless® is the start of a lifelong relationship.

It also means that every detail in a Stressless® is there for a reason. Their sole purpose is to make you as comfortable as possible. And in our quest to make the ultimate recliner, we've invented new technology that puts a Stressless® way ahead of other recliners, from the Plus™ System and the Stressless® glide system to our patented headrest. But the only way to fully appreciate the difference they make is to try one. You'll agree that Stressless® is the last word in comfort.

Look for the distinctive Stressless® logo on your products, and you will know that you are dealing with the original Stressless® comfort. Don't settle for less.

DISCOVER THE SECRETS OF PERSONAL COMFORT

- 1 The perforated foam is molded directly over the frame. The indentations in our new Comfort-Zones™ technology let your body sink deeper into the seat, giving you an overall embraced feeling for even more enhanced personal comfort.
- 2 An additional pad of soft space-age foam ensures optimum comfort.
- 3 Super-soft polyester fiber cushions your body and ensures an attractive look.
- 4 Durable steel frame and flexo springs for superior resilience and continuous support.
- 5 Plus™ system provides continuous support for your head and lower back. Double-sided mechanism ensures maximum stability and functionality.
- 6 Genuine top-grain leather or fabric covers the entire seat, for a luxurious look and feel.
- 7 Unique Stressless® Glide system automatically adjusts to your body weight.
- 8 Two-stem base adds superior stability.
- 9 For maximum mobility, swivel actions lets you easily turn 360°.

Ekornes® is proudly endorsed by the American Chiropractic Association.

The headrest adjusts automatically, so you can read and watch TV, even in a reclining position.

The Plus™ system adjusts the lower back support simultaneously with the headrest. Upright or reclined, you're always perfectly supported.

Lower the headrest to the sleep position with one simple movement.

Comfort Zones™ give you a better seating comfort, as the indentations let you sink deeper into the seat and back of the recliner.

Adjust the Stressless® Glide wheels to the setting of your desire. You can automatically shift to any seating position simply by using your body weight.

Easy-to-move ottoman features built-in Glide system that adjusts to your body movement for ultimate comfort.

Stressless® Senator Medium with Signature Base is shown in Paloma Henna/Oak.

Stressless® Sapphire Sofa shown in Paloma Copper with Stressless® Enigma Table.

Based on comfort

All Stressless® come with different base options. The Stressless Senator (shown above) features the Signature base; a combination of laminated beech and aluminum, delivered in seven different colors. You can easily insert an elevator-kit, providing an additional seating height of 1.25 inches. And with BalanceAdapt® elegantly integrated in the base, the soft and comfortable rocking movements will contribute to a sensation of comfort from the soles of your feet to the top of your head.

The comfort of your choosing

Most of our Stressless® designs are available in three sizes with multiple base options. We want everyone to have the opportunity to experience unsurpassed relaxation, regardless of body shape and size. If you want it, it's yours, as long as you feel comfortable. Stressless® Ruby has a classical and traditional appearance, with a bucket shaped design, providing additional side support and unique sitting comfort.

Clever comfort

We continuously strive to find ways of further enhancing your comfort. Our many clever, integrated table solutions are tailor made for your most comfortable sitting position, whilst at the same time ensuring that the look and overall feel of your Stressless recliner is not compromised.

STRESSLESS SWING TABLE

The Stressless Swing table heightens your state of comfort in a Stressless recliner. This small, versatile table carries your remote, cup, book or whatever else you like to keep handy.

STRESSLESS PERSONAL TABLE

The Stressless Personal table is a firm and stable workspace, situated directly above your lap. And, best of all, it allows you to fully enjoy all the ergonomic advantages of your favorite recliner. When you're done surfing, simply swing the table aside and fold it down alongside the recliner.

Functional design

A functional living room provides an additional sensation of comfort. Place a Stressless® Sapphire and a Stressless® Opal in the same room, and you have a perfect combination. Extra soft cushions, elegant design, adjustable seats, and the freedom to choose between high or low backs on your sofa. In addition, the Stressless® Duo ottoman can be used as both a leg support and an additional seat. It can also be made into a small table – by placing the hidden wood plate on its top. And when the occasion demands a little extra space, you can place the ottomans under your Stressless® Duo table.

THE INNOVATORS OF COMFORT™

Made in Norway

EKORNES® AND THE ENVIRONMENT

The objective of Ekornes is to accept environmental responsibility related to manufacturing, distribution and use of the company's products.

We will continue to implement initiatives in our factories that improve the internal and external environment, at the same time as we continue to select environmentally-friendly raw materials.

A sustainable manufacture of durable products will also be an objective in the development of our company.

The following core items shall be complied with in all parts of our activity:

- Ekornes shall appear as an environmentally-friendly enterprise. Our products shall cause the least possible impact on the environment.
- Ekornes has as its objective to keep the health risk at the workplaces at a minimum.
- Ekornes invests to avoid damage to the environment and injuries to health.
- Environmental information shall be generally available, for example through Environmental Product Declarations (EPD).
- Ekornes shall give objective and open information about how the company handles its environmental responsibility.

As an objective, Ekornes will continue to develop environmentally responsible methods in order to gain a competitive advantage ahead of our competitors.

Ekornes participates in the UN's Global compact.
